To Whom It May Concern,

I would like to provide a letter of recommendation and support for Ms. Mic Alexander of Image Wealth Management for endorsement for the presentation and educational content she provides for collegiate students and higher education audiences. I have had the pleasure of knowing and working with Mic as a presenter for the Office of Multicultural Academic Services.

I believe Ms. Alexander is an exceptional educator and personal mentor for all levels of college students in the most challenging of academic settings and personal backgrounds. Mic is highly motivated and has a genuine interest in helping develop emerging leaders within higher education. She is very committed to serving young adults and has a passion for bringing enlightenment to others.

Mic relates very well to the challenges and perspectives of young leaders and has an uncanny ability to present information in a way that is logical, relatable and creates personal reflection. She empowers students with knowledge that sparks growth and learning in a way that most seasoned professionals are unable to create in young students.

Mic would be an excellent professional resource and academic partner. Her professional expertise and current collaborations with various organizations would align with the mission of any institution regarding academic excellence, student retention and personal success. She will increase the emotional awareness and mental consciousness of your students, preparing them for the intellectual and competitive arena they will encounter. Thank you very much for your time and consideration.

Respectfully,

A handwritten signature in cursive script that reads "Howard".
